
KWA MIN MIN ALICE

Computer Science Student

Email: alicekwa2006@gmail.com | Phone: +60 1110980686

Location: Malaysia

PROFESSIONAL SUMMARY

Dedicated Computer Science student with a strong technical foundation in computer networking, software programming, system design and front-end web development using HTML, CSS and JavaScript. Proven ability in designing network topologies, developing functional applications and constructing clean web interfaces. A proactive problem-solver with a passion for exploring enterprise infrastructure, ready to apply theoretical knowledge to practical tech solutions.

EDUCATION

-Bachelor of Computer Science (Honours)

Sunway University, Malaysia

Expected Graduation: 2028

-Foundation in Science and Technology

Sunway College, Malaysia

Graduated: 2025

HONORS & CERTIFICATIONS

-Dean's List Award for Academic Excellence — Sunway University

Awarded by Dean Prof. Ir Denny Ng Kok Sum in recognition of outstanding academic performance during the September 2025 Semester in the Bachelor of Science (Honours) in Computer Science program. Demonstrated superior academic distinction, consistent dedication and advanced subject mastery, ranking among the top-tier performing students in the faculty.

-CCNA: Introduction to Networks — Cisco Networking Academy

Offered by Sunway University under the instruction of Maisarah Mansor through the official Cisco Networking Academy program. Successfully mastered network architecture, media, models, IP addressing schemes (IPv4/IPv6), ethernet concepts, foundational router, switch configuration and security.

TECHNICAL SKILLS

- * Programming Languages: Java (Swing GUI, OOP), Python (Syntax, Functions, File Handling).
 - * Web Development: HTML, CSS, JavaScript, VS Code.
 - * Networking & Infrastructure: Cisco IOS, Cisco Packet Tracer, Switches, Routers, VLAN Configuration, Inter-VLAN Routing, LAN Topologies.
 - * Database & Systems: SQL Queries, Database Design, ERD Diagrams, System Architecture.
-

FEATURED ACADEMIC PROJECTS

1. Student Grading System | Python

- * Designed and developed a desktop application to manage student records and automate grade calculation efficiently.

2. TreeFund: Interactive Tree Donation System | Java

- * Developed a Java-based mobile application integrating gamified tree donations with visual impact counters and contributor leaderboards using GUI to enhance user engagement.

3. Campus Networking & Topology Design | Cisco Packet Tracer

- * Designed and configured multi-device network topologies incorporating routers, multilayer switches and VLAN segmentation.
